

UNIVERSIDAD DE LAS FUERZAS ARMADAS

ESPE

Object-oriented programming

NRC: 9642

Homework N° 10

Topic: Project Review

PHD. Jorge Edison Lascano.

Inspector Report

Team 6: Code Warriors.

Team Members: Leonel Tipan.

Edison Verdesoto.

Team inspected: Team 2, KillChain.

Git Hub

Joan and Andrés have most of the commits, followed by Anabel and last is Pamela.

Interview

Everyone appears on the video, but it is too loud, and the voices aren't listenable.

Definitions

The definitions are well written and shows us a clear definition and requirements for the project, well structured.

Software Requirements

Missing UML diagrams, well specified software product.

Use Case

The team doesn't have a case Diagram.

Class Diagram

Name changed from vendor to salesman making the UML hard to follow, missing one multiplicity in the costumer-sale diagram.

Code

Some classes are extra in the code, these classes aren't in the document or the UML.

Execution

If you enter a product, it duplicates the item, the item selected doesn't match the ID in the console, Json do what it must do, but the program keeps adding instead of modify.
