

6. JOAN OSWALDO COBEÑA ZAMBRANO

DD MM A

Navigation

Direction questions

- Where am I now?
- Where do I want to go?
- How do I get there
- Am I there yet?

Signpost like logos, window titles, tabs or selection indicators help users stay "found"

These patterns helps to users to know where they are now:

- Sequence map
- Breadcrumbs
- Annotated Scrollbar
- Color-coded sections

Way finding is what the users do as they find their way, aids for that are good signage, good labels, environmental cues, maps.
