

Sildes Navigation

Name: Josue Marin

Navigation

Signpost are features that help users figure out their immediate surrounding

Simple common signposts include

- Window title
- Selection indications
- Logos

Now are there patterns

The following patterns represent common problems and solutions (in a context)

- Sequence Map
- Annotated scrollbar
- Breadcrumbs
- Color-coded

Way finding

- Way finding is what people (users) do as they find their way toward
- Way finding and the structure of a system are directly dependent
 - Good signage, good labels
 - Environmental clues
 - Maps, mental picture

Navigation Models

• Hub and Spoke

• Fully connected

• Multi-level

• Stepwise
